Perfecting motion  **blum**[®]

Inspiring Perfect motion

for every door

The CLIP top BLUMOTION hinge is setting new benchmarks: This sophisticated technology for perfect motion is now integrated into the smallest possible space - directly in the hinge boss. Because of this, CLIP top BLUMOTION opens up so many more design possibilities for doors.

The Austrian fittings specialist Blum is one of the world's leading manufacturers of lift, hinge and pull-out systems.

CLIP top BLUMOTION

Silent and effortless closing...

That's how furniture doors close with BLUMOTION - regardless of the front weight or closing speed. Due to the ideal relationship between the closing mechanism and BLUMOTION, a gentle push is all that's required for closing - even for small and light doors.

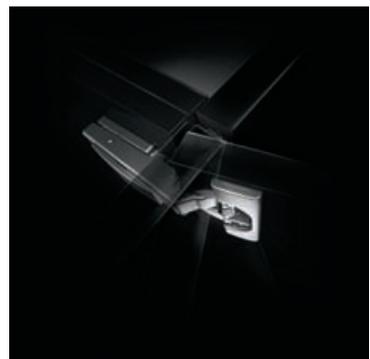

BLUMOTION deactivation option...

For high quality of motion for small and light doors, the BLUMOTION function on one of the two hinges can be easily deactivated. Simply slide the switch on the hinge boss, then close the door once. Deactivation is now complete.

New pivot points for thicker doors...

With CLIP top BLUMOTION, you can now implement thicker doors up to 24mm - depending on the application. The new pivoting point ensures that during the opening process, the door does not foul on the cabinet face. As a consequence of this ingenious new geometry, it is possible to achieve a smaller door gap. Thicker doors can also be accommodated.

BLUMOTION integrated into the hinge boss...

Precise movement like clockwork - the integrated BLUMOTION is a technical masterpiece that fits into the smallest space providing silent and effortless.

Frequently asked questions

- ?** **Can CLIP top BLUMOTION hinges be cleaned when installed inside the furniture?**
Yes. When cleaning, ensure that hinges and mounting plates are cleaned with care. Avoid applying abrasive chemicals containing alkaline, acid chlorine, acetone or thinners to the hinge. Cleaning the hinge is as simple as rubbing it with a soft damp cloth.
- ?** **Can I use CLIP top BLUMOTION in an outdoor kitchen?**
Blum does not recommend the use of our products in an outdoor application. Due to the higher potential exposure to salt air, humidity and water spillage, Blum hardware is not covered by warranty under these circumstances.
- ?** **How long is the warranty for CLIP top BLUMOTION?**
We place great value on the quality of our products. They have to undergo several tests in our testing labs: CLIP top BLUMOTION is designed to open and close more than 200,000 times. For this reason, we give a lifetime warranty on all hinges. In case of a warranty claim, please contact your kitchen supplier.
