

# Handy calculators

Useful tools for selecting products –  
directly in your web shop

# The right answers to simplify product selection

Which AVENTOS lift mechanism is right for my furniture?

Which TIP-ON BLUMOTION unit should I use if I want to build a high fronted pull-out with a heavy load? Sound familiar? We offer simple, modular calculators to answer these very questions – and all directly in your web shop, right at the source.

## Calculator for box systems

Find the optimal TIP-ON BLUMOTION unit.

## Calculator for hinge systems

Calculate the front weight based on the material and size of the front and determine the optimal number of hinges.

Easy integration into the web shop using iFrame.

The image illustrates the integration of a calculator into a web shop. On the desktop, a table lists various lift system components, and a 'LIFT SYSTEM' calculator overlay is shown with a close button. The calculator includes sections for 'Basic settings' and 'Are the lift system fronts symmetrical?' with 3D diagrams. Below the calculator, two smartphones are shown: the top one displays the calculator on a mobile screen, and the bottom one displays a 'LIFT SYSTEMS CALCULATOR' interface with a calculator icon and a 3D diagram.

Quantity	Item number	Part number	Description
2	09164242	20F2101.05	AVENTOS HF bi-fold lift system, I mechanism, PF-960-2550 (with 2 pieces), suitable for SERVO DRIVE
1	05397438	20F3200.01	AVENTOS HF bi-fold lift system, telescopic arm (set), C16-480-570, symmetrical
1	08817398	20F3080	AVENTOS HF bi-fold lift system, cover cap set, right/left
2	06874063	70T5599BTL	CLIP top standard fringe 120°, overlay application, unprung, boss: INSERTA
2	06797133	78Z553ET	CLIP top centre hinge for AVENTOS bi-fold lift systems 134°, unprung, boss: INSERTA

**Calculator for runner systems**

Calculate the optimal TIP-ON BLUMOTION unit for MOVENTO.

**Calculator for lift systems**

Determine the front weight and select the perfect lift mechanisms and lever arms.

# The right answers to simplify product selection

Which AVENTOS lift mechanism is right for my furniture?

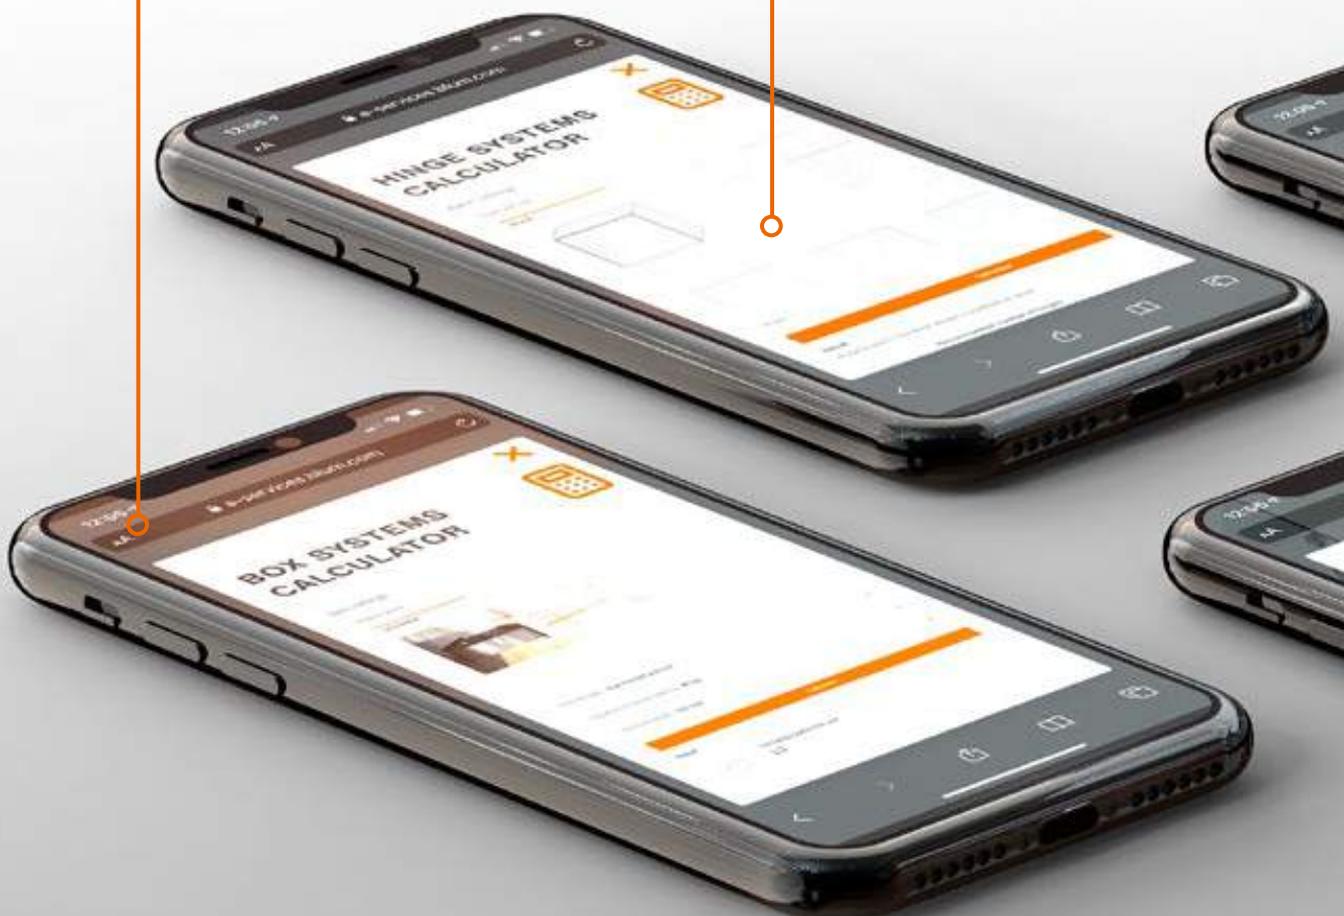

Which TIP-ON BLUMOTION unit should I use if I want to build a high fronted pull-out with a heavy load? Sound familiar? We offer simple, modular calculators to answer these very questions – and all directly in your web shop, right at the source.

## Calculator for box systems

Find the optimal TIP-ON BLUMOTION unit.

## Calculator for hinge systems

Calculate the front weight based on the material and size of the front and determine the optimal number of hinges.

### Advantages

Use simple calculators to support customers in your web shop and help them to select the perfect Blum fittings quickly and easily. This helps to minimise the number of queries, complaints and returns – saving you time and money.

### Simple integration into your web shop

Integration into your web shop could not be easier. Just place the corresponding calculator wherever you want. We will provide you with links to all the respective calculators.

### Always up to date and easy to use – answers right where they are needed

We keep all calculators up to date and add new functions to them. You just need to save the link once, and job done.

### Requirements

- Website or web shop
- Integration into online apps is also possible

### Precise product selection also results in fewer questions and returns

If your customers can find the perfect items quickly and easily, there will be no nasty surprises when it comes to installing them into their furniture. This means fewer questions for you and no more returns.

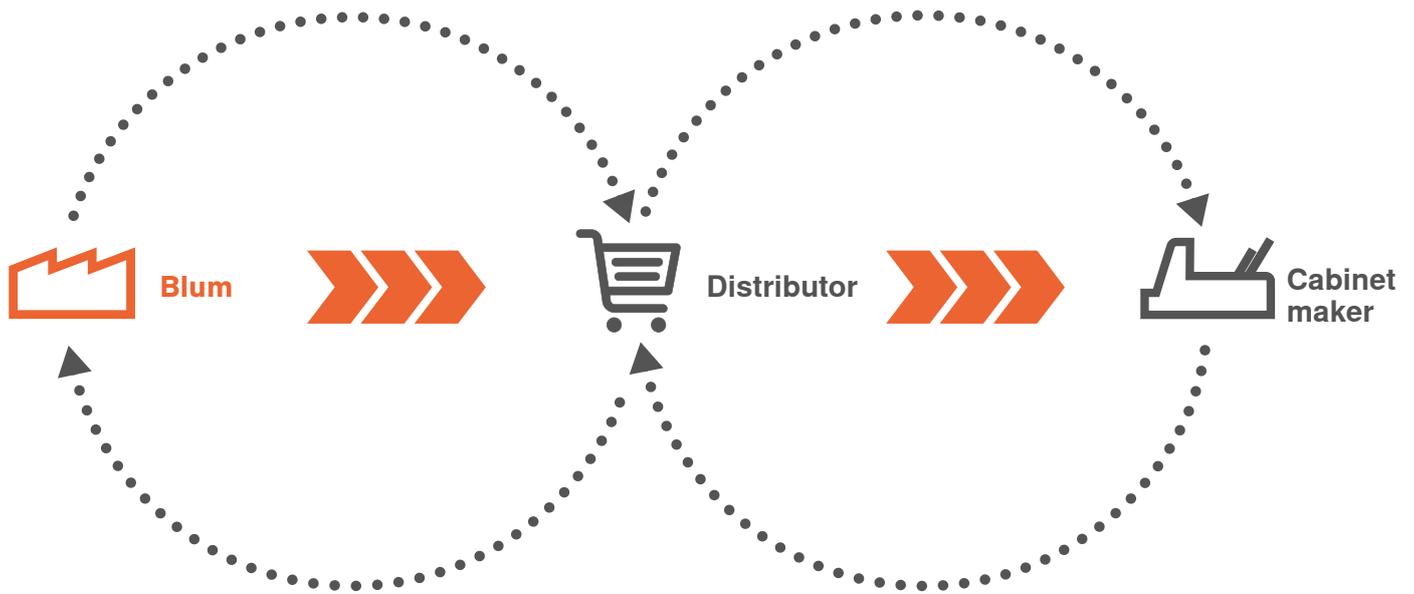

### Procedure

- Request the desired calculators from Blum
- We will send you the links to the calculators
- Add the links to your web shop or website as desired

### Interested?

If you are interested in this service, get in touch with your contact at Blum. We would be happy to advise you.

#### A real partnership

Smooth processes and a bilateral exchange of ideas and experiences guarantee a successful business partnership. We support our distributors with product data for their communication channels and the online order process.

#### Best possible support for your processes

It is very important to us that distributors can integrate our products into their value creation chains with ease. We offer both in-person and digital services for this purpose. At the end of the day, both you and your customers should benefit from our offering.

#### Services with added value for your customers

We also offer services to distributors that they in turn can offer to their customers, i.e. manufacturers. These include configurators for simple product selection, handy calculators, assembly information in the form of graphics and CAD/CAM data.
