One programme three lines many designs

A single Box system to meet all your customer's requirements? You can do it with the TANDEMBOX programme. TANDEMBOX plus, TANDEMBOX antaro and TANDEMBOX intivo offer a multitude of design possibilities. They are all based on the tried and tested TANDEMBOX cabinet profile.

Each line offers a comprehensive range of applications, ranging from standard solutions to special applications such as the sink pull-out or SPACE CORNER.

4–5 **TANDEMBOX optimisation – tangible technological improvements**

8–11 **TANDEMBOX intivo – the individual line**

... lets you individualise your range – with design elements of any material.

12–15 **TANDEMBOX antaro – the minimalist line**

... has a clear-cut design – combined with a gallery or with design elements to produce an enclosed drawer.

16–19 **TANDEMBOX plus – the versatile line**

... convinces users with its wide array of applications. The round gallery characterises this line. Drawers with high sides are also possible.

Easy opening

Lower opening forces and an even smoother transition to the feather-light glide improve performance from the moment you open the pull-out.

Quality to the touch

You can feel the increased stability provided by the combination of the optimised drawer side and new front fixing bracket.

Optimised feather-light glide

Components in the drawer side and cabinet profile have been further developed to optimise the feather-light glide of TANDEMBOX and the smooth running action.

Technological developments

Over the course of the development of TIP-ON BLUMOTION for TANDEMBOX, some of the main functions of the existing system were also optimised. These tangible improvements to the technology mean even greater quality of motion.

The TANDEMBOX cabinet profile – Three lines. One solution

 **blum**

All TANDEMBOX programme lines are based on the tried and tested TANDEMBOX cabinet profile. Its smooth running action has been impressing users for many years now. The low-friction cylindrical nylon roller runners ensure high quality of motion for load bearing classes of 30 and 65 kg. A furniture lifetime. Numerous motion and load bearing tests ensure this quality standard.

A versatile design for individual ideas

TANDEMBOX intivo offers a multitude of design possibilities, making every interior unique.

No matter what you opt for – every TANDEMBOX intivo is individual. TANDEMBOX intivo lets you individualise your design.

TANDEMBOX intivo – the individual line

blum

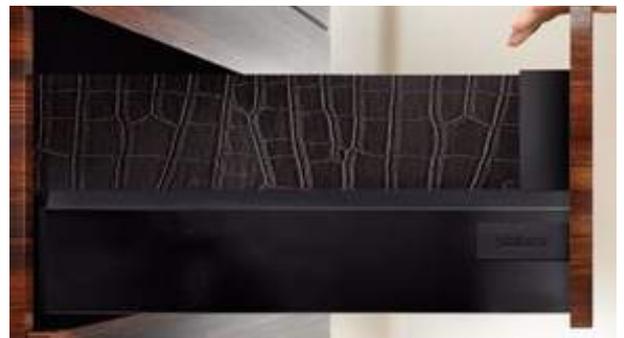

- You have endless design possibilities thanks to a wide choice of materials and the combination of the BOXCOVER fixing element.
- Blum offers printed or unprinted glass design elements, e.g. printed with your favourite pattern or logo
- Imitation Leather design elements by Blum
- For a uniform design: BOXCAP – an extension to the drawer side material
- Closed sides
- Installation heights for high fronted pull-outs: D (224)
- Suitable drawers: Heights N (68) and M (83)
- Equipped with BLUMOTION (integrated), SERVO-DRIVE (optional), TIP-ON BLUMOTION
- Widths of 275 to 1,200 mm, Nominal lengths of 270 to 650 mm
- Inner pull-out front fixing components are fully colour co-ordinated to drawer sides

TANDEMBOX intivo is available in silk white and terra black.

Balanced proportions and seamless design with BOXCAP.

The design elements can be in any material, even artificial leather.

Inner pull-out with glass design elements by Blum.

The design and colour of ORGA-LINE have been coordinated with TANDEMBOX intivo. The colour of nylon parts matches that of drawer sides.

A matching drawer is available with TANDEMBOX intivo.

TANDEMBOX antaro – the minimalist line

blum[®]

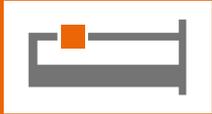

Rectangular rail with a clear design all the way down the line

TANDEMBOX antaro has a clear, rectangular style – whether it's with a gallery or as a closed box with a design element.

All components are colour coordinated thus underlining the minimalist product design.

TANDEMBOX antaro – the minimalist line

blum

- Characterised by a rectangular gallery
- Enclosed drawer with design elements of glass, metal or other materials for C and D heights
- ORGA-LINE components are coordinated with the respective drawer side colour
- Installation heights for high fronted pull-outs: C (192) and D (224)
- Suitable drawers: Heights N (68), M (83) and K (117)
- Equipped with BLUMOTION (integrated), SERVO-DRIVE (optional), TIP-ON BLUMOTION
- Widths of 275 to 1,200 mm
- Nominal lengths of 270 to 650 mm
- All nylon parts are coordinated with the drawer side colour

TANDEMBOX antaro is available in silk white, white aluminium (RAL 9006) and terra black.

Characteristic: The square gallery

Enclosed drawer with metal design elements

Inner pull-out with gallery and frosted glass design elements by Blum.

All components are colour coordinated: ORGA-LINE for TANDEMBOX antaro. The colour of the nylon parts matches that of the drawer side.

There is a matching drawer to go with TANDEMBOX antaro.

TANDEMBOX plus – the versatile line

blum[®]

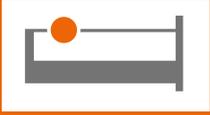

blum

More than meets the eye

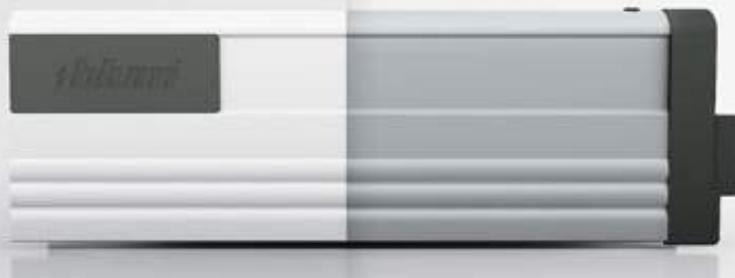

TANDEMBOX plus gives you the right solution for every customer. Whether it's a round gallery or a closed box, an extra wide pull-out or a narrow drawer. The diversity of TANDEMBOX plus offers freedom of design.

TANDEMBOX plus – the versatile line

blum

- Programme variety for the design of different drawers
- Installation heights for high fronted pull-outs: B (160), C (192) and D (224)
- Suitable drawers: Heights N (68), M (83) and K (115)
- Equipped with BLUMOTION (integrated), SERVO-DRIVE (optional), TIP-ON BLUMOTION
- Widths of 275 to 1,200 mm
- Nominal lengths of 270 to 650 mm
- All nylon components are dust grey

Examples of drawer side designs in epoxy coated white or grey steel.

The open box is available as a double or single gallery.

Closed box with double walled BOXSIDE

Inner pull-out with double gallery.

ORGA-LINE longside and cross dividers organise interiors. The ORGA-LINE connecting components for TANDEMBOX plus are dust grey.

Matching drawers complete the TANDEMBOX plus line.

TANDEMBOX intivo

TANDEMBOX antaro

TANDEMBOX plus

High fronted pull-outs

Inner pull-outs

Closed containers

ORGA-LINE

No matter whether TANDEMBOX plus, TANDEMBOX antaro or TANDEMBOX intivo, all three programme lines can be combined with:

BLUMOTION

by Blum

BLUMOTION

Pull-outs close softly and effortlessly with BLUMOTION - no matter how hard you slam drawers and pull-outs or how heavily laden they are.

SERVO-DRIVE

by Blum

SERVO-DRIVE

A single touch on handle-less fronts or a gentle pull on handles suffices and drawers and pull-outs open with ease with Blum's SERVO-DRIVE electric opening system.

And you always have integrated BLUMOTION.

TIP-ON BLUMOTION

by Blum

TIP-ON BLUMOTION

TIP-ON BLUMOTION combines the advantages of the TIP-ON mechanical opening support system with reliable BLUMOTION dampening. Closure with force activates the TIP-ON function, after which point BLUMOTION ensures a silent and effortless closing.

Top-quality motion throughout the kitchen

Enhanced user ease and top-quality motion are not only available for pull-outs.

- For lift systems: BLUMOTION, SERVO-DRIVE, TIP-ON
- For doors: BLUMOTION, TIP-ON

The company Blum

Founded over 60 years ago by Julius Blum, Blum is a family-owned company that operates on an international scale. Its strategic business segments include lift, hinge and pull-out systems. All our product developments focus on perfecting motion.

www.blum.com

 **blum**

Blum in Austria and around the world

The company has seven plants in Vorarlberg, Austria, additional production sites in Poland, the USA and Brazil and 29 subsidiaries/representative offices. Blum supplies more than 120 markets. The Blum Group employs 7.300 people in total, 5.500 of whom work in Vorarlberg.

Global customer benefits

“Whether manufacturer, distributor, fitter or kitchen user – everybody should personally enjoy the benefits of Blum products” – that is Blum’s philosophy on global customer benefits.

Innovations

To support customers with innovative fittings solutions and secure long-term success for the company, we need to consistently invest in research and development, in plants and facilities and in employee training. With more than 2.600 patents worldwide, Blum is one of Austria’s most innovative companies.

Quality

Blum’s comprehensive concept of quality does not only apply to products. Services and collaboration with customers and partners should also meet the same quality requirements.

Environment

At Blum, we believe that responsible ecological behaviour has long-term economic benefits. The longevity of products is just one of many important aspects. Other important measures include the use of environmentally-friendly processes, the intelligent use of materials and prudent energy management.

DYNAMIC SPACE

Good workflows, optimum use of storage space and top quality motion are important features of a practical kitchen. Blum’s ideas for practical kitchens are designed to bring function, convenience and ergonomics to furniture interiors.
