Information

For bi-fold lift systems –

AVENTOS HF

The AVENTOS HF lift system works with two-part-front wall cabinets.
When opened, it simply folds upwards.

- Perfect for higher wall cabinets because handles are always within easy reach
- Ideal for very tall cabinet heights because two-part folding front needs little space above cabinets
- AVENTOS HF is also available for asymmetrical fronts (two different heights)

Information

For up and over lift systems –

AVENTOS HS

Choose AVENTOS HS when the front needs to swing up and over the cabinet.

- Ideal for large-area, single fronts
- Minimum space required at the top of cabinet due to pivoting motion when opened
- AVENTOS HS also allows you to use a cornice or crown moulding

SERVO-DRIVE

For lift ups –

AVENTOS HL

With AVENTOS HL, the lift system opens vertically, making the cabinet interior completely accessible.

- Ideal for wall cabinet applications and the upper half of tall cabinets. It can also be used for mid-kitchen cabinets that house small appliances
- Suitable for small-area, one-part fronts
- AVENTOS HL can also be used for low wall cabinets or cabinets with little depth

Information

For stay lifts –

AVENTOS HK

AVENTOS HK is perfect for spaces with height restrictions.

- Ideal for large-area, single fronts
- Suitable for both low and high wall cabinets as well as for top cabinets that house appliances
- Minimum space required above cabinets thanks to pivot design of AVENTOS HK
- No hinges required

New: AVENTOS HK-S – the solution for small stay lifts

Information

TANDEM is the proven runner system for wooden drawers and pull-outs, providing inspiring and unsurpassed running action for both single and full extensions. Thanks to integrated BLUMOTION, the system always closes silently and effortlessly. TANDEM can also be combined with SERVO-DRIVE.

New: TIP-ON for TANDEM with synchronisation for wide pull-outs

Be inspired by variety and ease

TANDEM

TANDEM is the perfect way to present the fine details of wooden drawers in your cabinets. Even heavy drawers equipped with TANDEM impress users with their unrivalled running action. Very wide wooden drawers and pull-outs can now be opened reliably using TIP-ON – thanks to synchronisation. It can be used for single and full extensions.

- Unsurpassed running action with the TANDEM runner principle
- Silent and effortless closing thanks to BLUMOTION
- Full extension for clear visibility and direct access
- SERVO-DRIVE for opening ease
- TIP-ON mechanical opening system for handle-less fronts

An indoor playground

Your children's room

Your children's room

Kids are creative. Let them design their own rooms with **TANDEMBOX intivo**.

As they grow older, their special likings will change – cartoons today, superheroes tomorrow. **TANDEMBOX intivo** is easy to assemble so kids can quickly change the design elements of their drawers to suit their taste, again and again and again.

Cooking paradise

Your kitchen

Bringing to life the kitchens of the future

Improved ergonomics, greater comfort and more fun in the kitchen – that is what our innovative products are all about. Taking our direction from the needs of the kitchen user, we continue to find ways to add value and enhance the kitchen experience.

More about this at:
www.dynamicspace.com

**DYNAMIC
SPACE®**

Apart from the obvious, a new kitchen should also be fun. **DYNAMIC SPACE** is a tool to ensure that your new kitchen gives you a perfect working and living environment.

Combining quality of space with quality of motion, **DYNAMIC SPACE** uses zone planning to take kitchen storage, organisation and ergonomics to new levels. At the heart of this tool is the kitchen plan incorporating five activity zones: **consumables, non-consumables, cleaning, preparation and cooking.**

Learn more about **DYNAMIC SPACE**. Request a copy of the brochure by sending an email to info.sg@blum.com.

A well-planned kitchen requires a careful balance between design and function. You will be impressed by innovative solutions that are brought to life in your home. Together we can enhance the impact of perfect motion throughout the lifetime of your kitchen.

Get in touch.

Perfecting motion

Blum turns the opening and closing of furniture into a graceful and enhanced experience. Several thousand Blum employees worldwide work continuously to bring to life our vision of perfect motion.

Placing the needs of the homeowner at the heart of everything we do, we strive for complete satisfaction. All our partners benefit from this unwavering focus.

For over 50 years, quality has been the highest principle for the development and manufacture of our products.

Our fittings systems epitomise excellent quality with their well-thought-out function, recognised design and high durability. They are designed to inspire and elicit fascination for perfect motion. We also set the bar very high for the services we offer. They must provide the best possible support to our partners. To target our efforts at all levels, we are in a constant dialogue with kitchen users and regularly exchange information with furniture manufacturers, joiners and distributors.
