

Hinge system

PRODUCT
MEMO

blum

Our extensive hinge programme offers designers, architects and homeowners the right solution for every door. Blum hinges are available for many different opening angles and applications. They can be used with different door heights, thicknesses and materials as well as with glass and mirror doors. The easy three-dimensional hinge setting feature makes it easy to get a uniform and precise gap design. Thanks to cover caps, adjustment and fixing screws are concealed.

CLIP top hinges - the hinge system with the CLIP mechanism

The wide opening angle ensures easy access to the cabinet interior. Easy to setup, simple, tool-free assembly and removal, numerous application options and an elegant design all characterise CLIP top.

BLUMOTION for CLIP top hinges

With BLUMOTION, kitchen users will simply love the way their furniture doors close silently and effortlessly day in and day out. BLUMOTION is now showing a new side of itself – the hinge side. BLUMOTION redefines the term “quality of motion”. The system is quick and easy to install and, once fitted, creates a perfect closing motion. The effect is truly inspiring.
