4 for more

The four motion technologies from Blum

Design

Have more design freedom to add distinctive features with challenging handle positions and provide extra support for the user. For beautiful and practical furniture.

Functionality

Ensure that opening and closing functions perfectly for lift systems, doors and pull-outs. If the function impresses, the furniture will too.

Convenience

Make your furniture so convenient that using it is a new, inspiring experience every day. After all, high-quality furniture looks good and feels good too.

Mechanical

soft close

Soft and effortless closing for all your furniture – no matter how heavy the pull-out, door or lift system.

for lift systems, doors and pull-outs

Mechanical

opening & soft close

Pull-outs open at a single touch, giving users easy access to the opening edge of fronts. They can also be pulled open. Closes softly and effortlessly with minimal force thanks to integrated BLUMOTION. Can also be pressed shut.

for pull-outs

SERVO-DRIVE
by Blum

Electric

**opening &
soft close**

Supports the opening of lift systems and pull-outs after the front is touched. The subsequent motion takes place all on its own. Soft and effortless closing with integrated BLUMOTION. Lift systems even close automatically at the press of a switch.

for lift systems, pull-outs, fridge/freezers
and dishwashers

TIP-ON
by Blum

Mechanical

opening

Furniture opens at a single touch, giving users easy access to the opening edge of fronts. Close by pushing shut, without dampening.

for selected lift systems, doors and pull-outs
