One programme three lines many designs

A single Box system to meet all your customer's requirements? You can do it with the TANDEMBOX programme. TANDEMBOX plus, TANDEMBOX antaro and TANDEMBOX intivo offer a multitude of design possibilities. They are all based on the tried and tested TANDEMBOX cabinet profile.

Each line offers a comprehensive range of applications, ranging from standard solutions to special applications such as the sink pull-out or SPACE CORNER.

6–9 **TANDEMBOX intivo – the individual line**

... lets you individualise your design – with design elements of any material.

10–13 **TANDEMBOX antaro – the minimalist line**

... is characterised by straight-cut lines. The rectangular gallery underlines the sleek product design.

14–17 **TANDEMBOX plus – the versatile line**

... inspires users with its wide array of applications. The round gallery is typical of this line. Containers with high sides are also possible.

The TANDEMBOX cabinet profile

All three programme lines have the TANDEMBOX cabinet profile and its tried and tested feather-light glide. Low-friction cylindrical nylon roller runners guarantee top-quality motion for loads of 30, 50 and 65 kg – a furniture lifetime. Fully laden pull-outs are tested with 100,000 opening and closing cycles in Blum's test labs to guarantee top standards of quality.

Utmost opening and closing ease

No matter whether TANDEMBOX plus, TANDEMBOX antaro or TANDEMBOX intivo, all three programme lines can be combined with:

BLUMOTION

Pull-outs close softly and effortlessly with BLUMOTION - no matter how hard you slam drawers and pull-outs or how heavily laden they are.

SERVO-DRIVE

A single touch on handle-less fronts or a gentle pull on handles suffices and drawers and pull-outs open with ease with Blum's SERVO-DRIVE electric opening system.

And you always have integrated BLUMOTION.

TIP-ON

Blum's mechanical TIP-ON opening system offers enhanced opening ease. Handle-less pull-outs, doors and lift systems will open at a single touch.

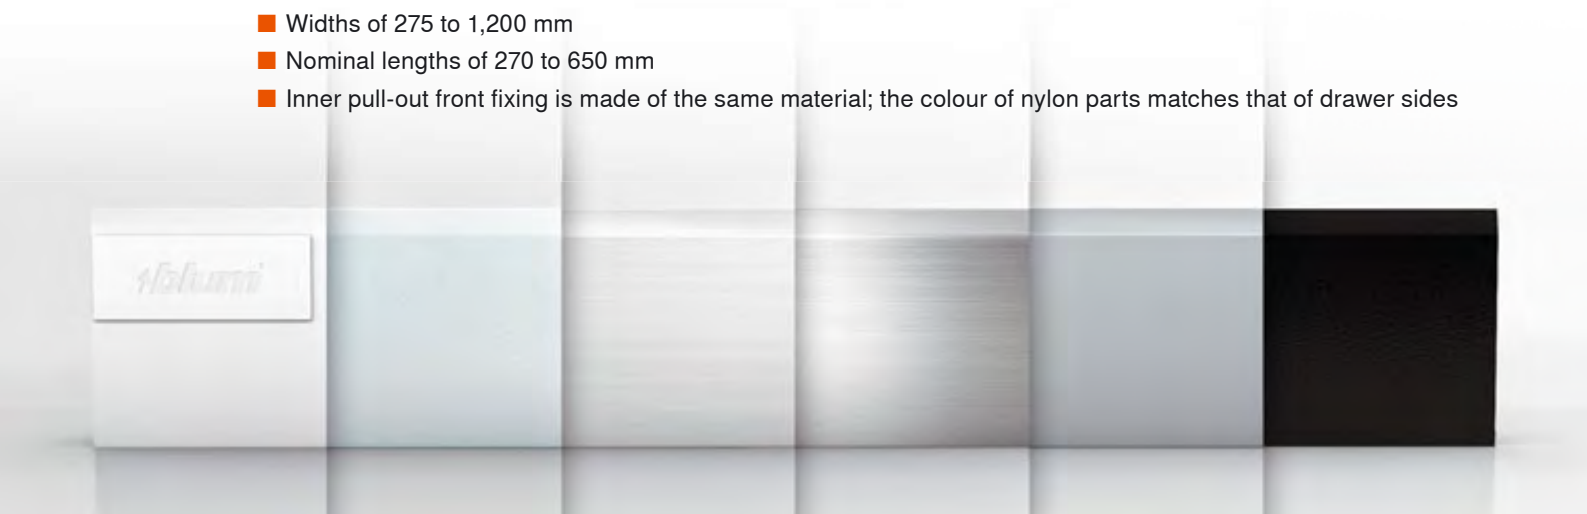

Top-quality motion throughout the kitchen

Enhanced user ease and top-quality motion are not only available for pull-outs.

- For lift systems: BLUMOTION, SERVO-DRIVE, TIP-ON
- For doors: BLUMOTION, TIP-ON

TANDEMBOX intivo – the individual line

- Endless design possibilities thanks to a wide choice of materials and the combination of the BOXCOVER fixing element
- Blum offers printed or unprinted glass design elements, e.g. printed with your favourite pattern or logo
- Leather design elements by Blum
- A harmonious design with BOXCAP (an add-on in the same material as the drawer side)
- Specially developed colour scheme
- Closed sides
- Installation heights for high fronted pull-outs: C (192) and D (224)
- Suitable drawers: Heights N (68) and M (83)
- Equipped with (integrated) BLUMOTION, (optional) SERVO-DRIVE, (optional) TIP-ON
- Widths of 275 to 1,200 mm
- Nominal lengths of 270 to 650 mm
- Inner pull-out front fixing is made of the same material; the colour of nylon parts matches that of drawer sides

TANDEMBOX intivo is available in silk white, ice silver, aluminium, stainless steel, RAL 9006 and terra black.

Balanced proportions and seamless design with BOXCAP.

The design elements can be in any material, even artificial leather.

Inner pull-out with glass design elements by Blum.

The design and colour of ORGA-LINE have been adapted to TANDEMBOX intivo. The colour of nylon parts matches that of drawer sides.

A matching drawer is available with TANDEMBOX intivo.

TANDEMBOX antaro – the minimalist line

Straight-cut and harmonious

TANDEMBOX antaro stands for a clear and straight-cut design. It is characterised by a rectangular gallery which is available as a simple or double rail. The clarity of the line is reflected in its colour scheme. All components are colour coordinated for an optimal visual result.

The programme is manageable and covers all kitchen applications.

TANDEMBOX antaro – the minimalist line

- A streamlined selection of colours, materials and profile shapes
- Installation heights for high fronted pull-outs: C (192) and D (224)
- Suitable drawers: Heights N (68) and M (83)
- Equipped with (integrated) BLUMOTION, (optional) SERVO-DRIVE, (optional) TIP-ON
- Widths of 275 to 1,200 mm
- Nominal lengths of 270 to 650 mm
- The colour of the nylon parts matches that of the drawer side

TANDEMBOX antaro is available in silk white, ice silver, stainless steel, RAL 9006 and terra black.

The rectangular gallery is typical of TANDEMBOX antaro.

A double gallery is also possible.

Inner pull-out with simple rectangular gallery.

All components are colour coordinated:
ORGA-LINE for TANDEMBOX antaro.
The colour of the nylon parts matches that
of the drawer side.

There is a matching drawer to go with
TANDEMBOX antaro.

TANDEMBOX plus – the versatile line

More than meets the eye

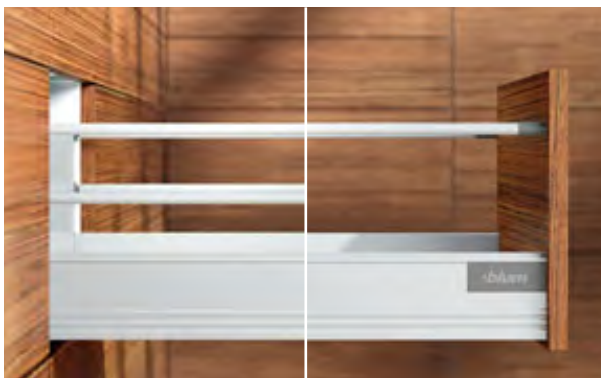

TANDEMBOX plus gives you the right solution for every customer. You can have a round gallery or a closed container, an extra-wide pull-out or a narrow drawer, aluminium, steel or stainless steel – the choice is yours. The diversity of TANDEMBOX plus offers freedom of design.

TANDEMBOX plus – the versatile line

- A great selection of colours, materials and profile shapes
- Installation heights for high fronted pull-outs: B (160), C (192) and D (224)
- Suitable drawers: Heights N (68), M (83) and K (115)
- Equipped with (integrated) BLUMOTION, (optional) SERVO-DRIVE, (optional) TIP-ON
- Widths of 275 to 1,200 mm
- Nominal lengths of 270 to 650 mm
- All nylon components are dust grey

Examples of drawer sides in white and grey epoxy coated steel, in stainless steel and aluminium.

The open container is available with a simple or double gallery.

The closed container with a metal or glass BOXSIDE.

Inner pull-out with double gallery.

ORGA-LINE longside and cross dividers organise interiors. The ORGA-LINE components for TANDEMBOX plus are dust grey.

Matching drawers complete the TANDEMBOX plus line.

Assembly and adjustment

Efficient installation

It's quick and simple to install the cabinet profile. The fixing positions are the same for all three programme lines.

Fast, tool-free assembly

Everything's assembled within a matter of seconds. Front and gallery are attached with INSERTA and CLIP technology. Trace-free removal is also possible.

Simple adjustment

All three TANDEMBOX lines have 3-dimensional front adjustment so that you can quickly align gaps.

Perfecting motion

Blum's fittings solutions are designed to make opening and closing furniture a special experience. That's why we make every effort to perfect the motion of our lift, hinge, box and runner systems.

DYNAMIC SPACE

Blum products help optimise workflows, produce extra storage space and provide enhanced user convenience – making kitchens extremely practical.

Blum in Austria and around the world

Over 5,000 employees work hard to help us perfect motion. Our fittings are manufactured at ten plants. Seven are in Austria, the remaining are in the USA, Brazil and Poland. Thanks to international subsidiaries and sales agencies, Blum is on site to serve its customers all over the world.

Quality

Blum products have been developed for everyday kitchen use and are a pleasure to use a furniture lifetime.

Innovations

We want our fittings solutions to be innovative and make everyday kitchen use easier. That's why our developments are based on findings from requirement research and input from our customers.

Environment

Blum strives to minimise its environmental impact. We use environmentally-friendly processes, use raw materials intelligently and save energy wherever we can.

Global customer benefits

Everyone should benefit from the advantages of Blum products – from furniture manufacturers right down to end users.
