

# Preparation drawers

ideal for spice and bottle storage

PRODUCT  
MEMO

**blum**

The preparation zone is pivotal in the kitchen as it contains the main work areas of the kitchen. The preparation drawers help to store the items and ingredients in one distinctive location. There is nothing more ergonomical than to keep the spices, sauces, cutting boards and other ingredients inside the preparation cabinets.

## New level of motion quality

Preparation drawers can be opened and closed hands-free. With SERVO-DRIVE electrical opening system, a feather-light touch is all you need to open your drawers. Thanks to BLUMOTION, your preparation drawers will close silently & effortlessly.

i

## Your ideal preparation space

When preparing meals, right spices and utensils should be close at hand. The following are the items to store inside your preparation cabinets.

1 Spices are best stored in the drawer above. The ORGA-LINE spice holder safely stores both small & big containers.

2 The inner drawer inside the preparation cabinets makes use of the space above the bottle drawer. You can store freezer bags, kitchen wraps and much more.

3 Bottles and cutting boards can be stored securely at the bottle drawer.

Preparation drawers consist of:

TANDEMBOX intivo - Silver white (SW) / Terra black (TB) / Silver grey (SG) / Inox
