TANDEMBOX intivo S5 with cross divider and bottle storage

TANDEMBOX antaro S2 with cross dividers

## For optimal organisation in the kitchen

The TANDEMBOX intivo pull-out system offers numerous design opportunities. A great deal of thought was put into the design as well as the function. The same is true for the ORGA-LINE inner dividing system. All cross and longside dividers have been customised to TANDEMBOX intivo and can be adjusted to fit all storage items. All storage items such as cutlery, bottles or pots can be stored in a way that is both practical and functional in various applications. Everything is well organised and easy to reach.

## Advantageous in every way

ORGA-LINE for TANDEMBOX intivo are customised in terra black, silk white, silver grey and inox, to blend well to your existing TANDEMBOX intivo or TANDEMBOX antaro. Aside from its aesthetic advantage, ORGA-LINE provides overview and organisation to all items in your drawers, enabling you to access them quickly. The dividers can be adjusted to suit your requirements and are dishwasher-safe.
